

The Sassy Sistership

NorseBoat 12.5 Classic

WITH THE RELEASE of the NorseBoat 12.5 Classic, one of the sassiest and most versatile small boats on the market just got better...better performance and stability, more comfort and ease of use, with the same superb quality, same classic lines and signature aesthetic appeal.

The NorseBoat 12.5 is a compact sailing and rowing boat that pairs innovative NorseBoat design with a time-tested, traditional hull known for its speed, responsiveness, and shallow draft. Beautifully balanced and effortlessly versatile, it's the perfect choice for sailors seeking a multi-purpose tender, a classic daysailer, or a compact camp-cruiser for exploring close-to-shore waters. Featuring our pivoting carbon mast, signature curved headboard, fully battened mainsail, optional furling headsail, premium Harken hardware, and two dedicated rowing stations, the 12.5 delivers impressive performance in both sailing and rowing modes. Positive flotation, generous storage, and an option for a full-size double berth make it surprisingly capable for overnight adventures. Trailerable with a small car and sized to fit in even a modest size garage, the NorseBoat 12.5 brings true adventure within easy reach – beautifully simple, endlessly adaptable, and ready for wherever the water leads.
